

Corporate Donations Policy- Network of Oregon Watershed Councils

The Network of Oregon Watershed Councils receives financial support from a variety of sources for work that advances our mission. Those sources include individuals, foundations, agencies and corporations.

We actively seek support from corporations with a demonstrated interest in conducting business in a way that improves environmental quality.

We work to establish corporate partnerships that promote environmental responsibility and improve environmental performance while advancing our mutual interests.

We normally accept general support from any source if it comes without conditions.

However, to protect our integrity and the confidence of our other donors, we reserve the right to reject support that would

- Establish a relationship that would compromise our reputation, independence or effectiveness;
- Establish a precedent that could be harmful to the Network of Oregon Watershed Councils;
- Allow our name or logo to be used in a manner that suggests endorsement of a particular company or product.
